GEORGIA UNDERGROUND SUPERSTORE

Over and Under, We've Got You Covered!

The GUS Superstore Staff knows the business and can assist you with the latest products.

showrooms, and we're still growing!

for all your construction needs.

GUS is offering quality products from leading manufacturers

Georgia Underground Superstore has built a unique business around the special needs of utility contractors like you. We are committed to maintaining a unique product mix so we can be your "one-stop shop" for both your equipment and supply needs.

We look forward to earning your business by:

- Stocking products so they are available when you need them
- Offering quality products from leading manufacturers
- Shipping your orders quickly anywhere in the United States and beyond
- Maintaining a knowledgable staff that understands the utility contruction business

Fiber Optic Cable

Complete family of Indoor-Outdoor Fiber Cabling

Singlemode/ Multimode Microcable ADSS

Specialty Fiber Loose Tube Drop Cable

and More

Fiber To The People

Typical 48 Armored Cable

Applications: Blown Installation, CATV and DataCom, Direct Burial Campus Backbone, General Purpose Armored Outdoor, Long Distance OSP, Outdoor Plant Duct Installation, Rugged Environments

General Construction: This gel free cable contains SM G652D color-coded optical fibers in 4 color-coded loose tubes. The tubes include swellable yarns to prevent the ingress of water. Corrugated steel armor is longitudinally applied over the yarns which reinforce the cable core.

Tube Diameter: 2.5mm nom **Armoring:** Corrugated Steel **Outer Jacket Material:** HDPE **Outer Diameter:** 12.5mm nom

Outer Jacket Color: Black Weight: 136kg/km

Applicable Standards: IEC 60794, IEC 60794-21/22, ISO/IEC 11801-1,

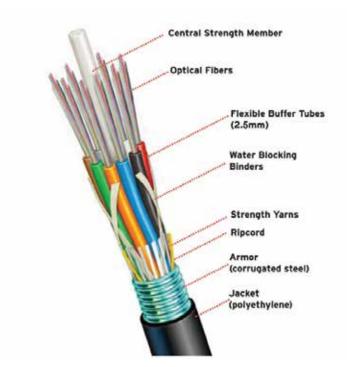

TIA/EIA-568 UV Resistance: 1

Common, In-Stock Cable

ezSTRIP/ Loose Tube/ DRC

Applications: Aerial – Lashed, Duct, Direct Buried Dielectric, and Armored Fiber Counts (in-stock): 12, 24, 48, 72, 96 Available up to 432 count

- Ripcord speeds cable entry and jacket removal
- Flexible buffer tube simplifies routing and splicing
- DRC gel free

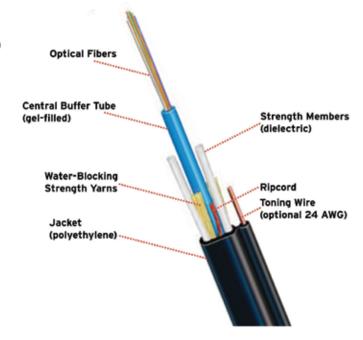

ezDROP/Flat

(Dielectric and Toneable Flat Drop Cable) Applications: Aerial Self-Support, Direct

Bury or Duct

Fiber Count (in stock): 2 Available up to 12 count

- Dielectric
- Ripcord speeds cable entry and jacket removal
- Toning wire enables underground location
- Bend-tolerant singlemode -BendBright

Note: There are numerous products and choices available in Fiber-Optic Cable. If there is something you need, please give GUS a call!

HDPE

High-Density Polyethylene (HDPE) Duct

- Smooth Wall
- Ribbed Wall
- Corrugated
- Toneable
- Cable-in-Conduit (CIC)
- Microduct
- FuturePath

We SPECIALIZE in custom jobs!

- Multiple duct runs
- Multiple sizes and colors
- Various wall thicknesses
- Custom print lines
- Multiple measure tape options

Microduct

Why install expensive, extra fiber that might never be used?

Easily expand your fiber network as your need arises!

Maximize your utilization of new or existing duct!

Lowers overall installation and cable costs!

- Different sizes for different applications
- Various colors
- Flexible, lightweight
- Easy to install
- Designed for duct sizes 3/4" 2"
- Available in a locatable version

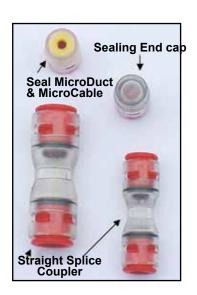

Microduct Accessories

We have everything you need:

- Couplers
- Plugs
- Pulling harness
- Duct cutters
- Etc.

Note: Accessories work on both the MicroDuct and FuturePath

FuturePath

The Future of Micro Technology is here today!

MicroDucts, packaged together in an oversheath configuration. It can be used in aerial conditions, existing conduit or buried applications.

It's Versatile! It's Efficient! It's the Future!

Multiple configurations available:

7-way, 5-way, 4-way, 3-way or 2-way

Install with traditional methods:

- Plowed, open trench, directional drilled
- Aerial lashed
- Existing duct traditional pulling or blowing methods

Available with superslick permanent lining Empty or with preinstalled pull line No special tools Sequential markings Available on steel reels

Can be used in warehouses and apartments!

Save up-front costs by installing lower fiber count cable. Easily install additional fiber cable on an "as-needed" basis. Also, by installing on the fibers you need today, you have the flexibility to utilize the latest in fiber technology as it becomes available tomorrow!

The world's needs are constantly changing. Prepare yourself today to easily adjust to whatever the future might bring!

Handholes

Utility Plastic

UV Stablized Polyproplylene Polyethylene (HDPE)

- Lightweight!
- Strong!
- Durable!
- Economical
- Easy to handle and install

Twist Lock Lid
Reinforced bottom edge for retained shape
Mouseholes and knockouts for pipe configuration
Light duty boxes rated for pedestrian traffic only
Field modifications with any cutting tool

Hubbell/ Quazite

Made from a special combination of polymer concrete and fiber reinforced polyester!

Lightweight! Strong! Durable!

Available in "Straight" wall
Available with 10K, 20K, or 40K lids
Stainless steel hardware
Standard or custom logos available
Lids are available with embedded EMS markers

Blowers

Condux Blowers - Gulfstream 400 Fiber Optic Cable Blower

The Condux Gulfstream 400 Fiber Optic Cable Blower is easy to order. The base unit comes complete with a job box, hydraulic hoses and everything in the "Common Parts Package

Common Parts Package: (included with all blower units) Part Number	Description
02290222	Small Case
08780506	Foam Insert for Small Case
02284600	Small Divided Case
02288774	Parts Label for Small Divided Case
08780126	O-Ring Seal Kit
02286416	2 Pin Extension Cord
08230800	Canvas Bag
08017000	5/8" x 600 lb Swivel
08780424	Capscrew Set (12-M04-07)
08761248	Power Cord Assembly Lighter Plug
02289620	Wrench 3/4"
02290168	Standard & Metric Hex Key Set
02283800	Hex Ball Driver 3/32"
02288787	Hex Ball-Point Driver 2.5mm
02291090	9/16" Comb-Rachet Wrench
08780223	Venturi Air Plug (Seal Disk)

Package 1A includes Cable Packs #1-7 and Duct Packs #2-5

Package 1B includes Cable Packs #1-7 and Duct Pack #4-6

Plumett Blowers

SUPERJET

For ables and fibers 0.9 to 32mm and ducts OD 20 to 63mm

MINIJET

For cables and fibers 0.4 to 16mm and ducts OD 7 to 42mm

GMP Blower

TORNADO

For cables and fibers 0.24" to 1.34" and ducts OD 0.5" to 2"

Fremco Blower

POWERFLOW RAPID

For cables and fibers 5.5 to 25mm and ducts OD 10 - 63mm

Pullers

Condux Fiber Optic Cable Pullers (No Capstan)

The Condux Fiber Optic Cable Puller consist of a hydraulic motor, variable speed foot control, manual flow control valve for adjusting maximum speed and a manually adjustable pressure relief valve for adjusting the ultimate pull tension.

Package 1 contains Flber Optic Cable Puller, Foot Control and Hoses.

Does not include a remote mounting stand or a base mount.

Package 3 contains All Items from Package 1 Plus monitoring components including an electronic control box with a paperless chart recorder for permanent documentation of your pull.

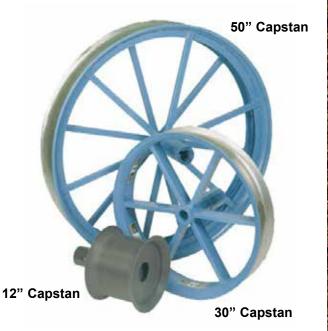

Does not include a remote mounting stand or a base mount.

Note: The Hydraulic Power source is sold separately

Portable Hydraulic Power Packs

These portable power sources are matched perfectly to the power requirements of the Condux Fiber Optic Cable Puller and the Fiber Optic Cable Blower.

Capstans

For a standard 2 7/16" diameter bayonet style shaft.

HDPE Couplings

Reverse Thread - Aluminum

The right hand/left hand reverse thread aluminum couplings are our most economical and versatile coupling. The couplings work equally well for smooth wall, corrugated, or ribbed type innerduct, and are made in all sizes of SDR and SIDR rated innerducts from 3/4" to 6". Thread-on couplings can be installed by hand.

Part #	Nominal Duct	Duct OD
AS.840	1/2"	.840
AS1.050	3/4"	1.050
AS1.315	1"	1.315
AS1.660	11⁄4"	1.660

Comfit (Push-On)

- Fast, Easy Air-tight installation
- Excellent for blowing and pulling cable installation methods
- Approved by numerous duct and cable companies
- Available for 1", 11/4", 11/2", 2" HDPE

Clear-Lock Couplers

- Clear midsection gives added visibility
- Ideal for pull boxes, vaults or other limited access areas
- Simple, one person 'push-on'
- Self-locking ring design
- · High strength molded plastic body

HDPE Split Couplings

Aluminum Split Couplings

Reusable

Good for temporary joining of all types of innerduct

Also used on repairs

HDPE sizes — 1", 11/4", 11/2", 2"

Designed for permanent installation

Join either plain end, threaded, grooved or any combination Made from heavy-gauge plated steel

Each has a rubber gasket

1/2" - 48" pipe sizes

HDPE Duct Plugs

Blank Duct Plugs

Removable and reusable

"High-impact" plastics with durable gaskets

Corrosion proof

"Tie-off" eye on back of plug

Water-tight

In-stock sizes: 1", 11/4", 11/2", 2", 21/2", 3", 4", 5", 6"

Available in 11 Sizes
Tapered and ribbed slide walls ensure tight seal
Extended base lip for easy removal
"Tie-off" eye on back of plug
Maintains shape in extreme environments
In-stock sizes: 2", 3", 4", 5", 6"

Fiber Optic Organizer Plugs

Split plugs with bushing assemblies
Removable and reusable
Easy installation (no foam or chemicals)
Ideal for manholes, buildings and cabinets
Extensive amount of options to meet
different applications
Please call for individual sizing

Fiberglass Duct

Best corrosion protection of any conduit material!

- Nonmetallic. Will not rust or corrode
- Fire resistant and non-toxic
- Non-conductive, assuring a safe system
- Thermal expansion rate is similar to RMC (Rigid Metalllic Conduit)
- Low coefficient of friction. Smooth inner wall results in longer cable pulls with no burn-through
- A much more economical installation compared to PVC coated steel and RMC
- Light weight. A 19.68 ft. (6 m) section of 4" (102 mm) conduit weighs less than 15 lbs. (7 kg.)
- Available in 3/4" (19 mm) through 8" (203 mm) diameters
- · Complete line of elbows, fittings and conduit bodies
- Chemical Inertness. Impervious to a wide spectrum of chemicals and fuels
- · Contains no chlorine, halogen or other toxic materials
- Temperature range from -40°F to +230°F (-40°C to +110°C)

- · Small caliber, low velocity, projectile resistance
- Highest strength to weight ratio of any conduit system
- · Superior load bearing
- Lightweight. A 19.68 ft. (6 m) section of 4" (102 mm) conduit weighs less than 45 lbs. (20 kg.)
- Fewer expensive hangers supports and inserts on bridge installations (high flexural strength)
- Superior UV and weathering characteristics
- · Bell and spigot joint for fast, easy installation
- DOT approved!

Fiberglass Adhesive Kit

40-0161 Epoxy kit20-0164 Dual cartridge20-0165 Dual cartridge applicator

Bridge Hangers

Conduit Support Systems

- · Custom design and engineering
- Hangers for all types of conduit Fiberglass
 PVC
 - Steel / Galvanized
- · Rapid turnaround
- · All styles of hangers for any circumstances
- · Hanger systems meet DOT specifications

Split-Steel Conduit

(2-piece, flanged trough, bolted together)

Ideal for:

- Temporary or emergency repairs
- Bridge crossings
- Utility entrances
- Pole risers
- Anywhere cabling needs would require future access

14 gauge galvanized steel

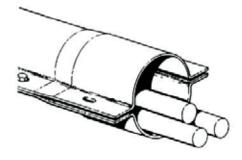

10' lengths

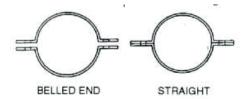

Belled on one end

Installs fast, saves time and labor costs

Elbows available

Numerous sizes: 1½" - 6" (We stock 4")

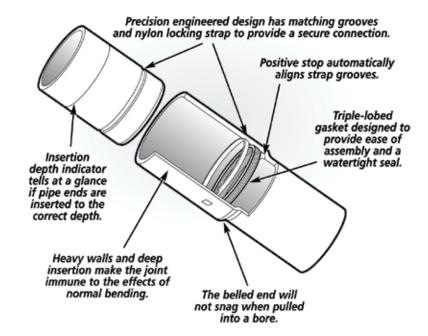

Trenchless Raceway

Bore-Gard

Designed and Proven for Directional Drilling Applications!

- Locking ring strong enough for 1,000' bores
- · Lightweight and easy to handle
- Corrosion resistant
- Fits standard PVC fittings
- · Fast, easy assembly
- · No solvent-cements required
- · Water-tight seal
- RUS accepted
- UL listed
- Sizes: Schedule 40 3", 4", 5" & 6" Schedule 80 — 3" & 4"
- 10' & 20' length
- · Also available with Multi-Cell

"Eliminates costly problems with HDPE pipe, such as reel handling, fusion welding, uncoiling and wasted pipe, safety hazards and additional job site labor."

Locking ring enables fast, cement-free assembly.

Slide locking ring into the joint.

Fully assembled, the locking ring provides strong water-tight joints without cement.

Multi-Cell Conduit

- For underground or underbridge applications
- Various conduit types available:

PVC

Fiberglass

Steel

- 3 or 4 innerducts 4" conduit
 - 4 innerducts 4" conduit
 - 8 or 10 innerducts 4" conduit
 - 14 innerducts 4" conduit
- 20' lengths standard, 10' lengths available
- Sweeps, couplings, expansion joints, all the accessories available.
- DOT approved

MaxCell Innerduct

Utilize up to 80% of available duct space

Works with every known type of cable

including:

- Fiber Optic
- Telephone
- Power Utility
- Premise (riser and plenum)
- Outside Plant
- Underground

- Reduce the number of conduits required for new network construction
- Minimize the need for additional conduit in overlay applications
- · Enable incremental deployment to match system requirements
- Significantly reduce project costs
- Fit up to 3 times as many cables per conduit
- Easily install cable even in occupied conduit

- · Available in standard, plenum and detectable versions
- Available in a range of configuration designed to meet conduit sizes
- · Can be "pulled" into conduit

Our Most Popular Style

Fusion Splicers

VIEW3 PRO is the most precise active cladding fusion splicer on the market with its advance four motored alignment algorithm to ensure the ultimate work expericence.

VIEW5 PRO, a core-alignment splicer with the world's highest fiber image magnification rate, is the most proficient fusion splicer on the market.

VIEW8 PRO is a premium core-alignment splicer with the world's highest specification, offers maximum work efficiency through the quick mode of 6s splice time and 9s heating time.

VIEW12R PRO, a ribbon splicer with the fully motorized clamp alignment system, is the market's most powerful and state-of-the-art ribbon splicer.

Tension Test	1.96~2.25N				
Dimension	149W x 177D x 151H mm (with rubber bumper) 143W x 158D x 162H m 130W x 166D x 140H mm (without rubber bumper) 130W x 157D x 150H mm			nm (with rubber bumper) n (without rubber bumper)	
Weight	2.21kg (with battery) 1.85kg (without battery)		2.78kg (with battery) 2.12kg (without battery)	2.64kg (with battery) 1.98kg (without battery)	
White LED	3 Wh	ite LEDs	2 White LEDs	3 White LEDs	
Monitor			Display, Full touch screen		
Fiber View			C, Y, XY, X/Y	to 250x	
Magnification		320 ~ 520x			
Results Storage			data / 10,000 Splice Image		
Power Supply		<u> </u>	-240V, DC Inputer 9-14V		
Terminal	USB Type C / Nano SIM				
Battery Capacity	LBT-52, Typical Usage: 200 cycles Power Save Usage: 250 cycles		LBT-30, Typical Usage: 355 cycles Power Save Usage: 450 cycles	LBT-30, Typical Usage: 220 cycles Power Save Usage: 260 cycles	
Electrode Life		5500 arcs discharges		3000 arcs discharges	
GPS			Available		
		Environmental Cor			
Operating Condition	II the orome		-dew / Temperature: -10~50°C / Wind: up to 15n		
Storage Condition	Humidity: 0°95%, non-dew Temperature: -20°60°C Temperature: -40°80°C Temperature: -40°80°C		Humidity: 0°95%, non-dew Temperature: -20°60°C		

Fiber Hand Tools

Hundreds of different tools In-Stock!

Reel Thing

Reel Thing - Allows a compact, convenient way to lift and payout any reel mounted material such as cable, wire, and innerduct. Light enough to carry in one hand but strong and durable.

RH-20 - 2000lb Cap **RH-40** - 4000lb Cap

Fiber Optic Power Meter - The Power Meter comes with FC/SC Adapters for APC/PC/UPC connectors. It is perfect for measuring both the absolute optical power and the relative power loss in fiber optic cables. FPM-50A

Fiber Optic Power Meter

Universal Fiber Connector Cleaner

Universal Flber Connector Cleaner - Features a patent pending Slide-Guide technology that provides stable and consistent cleaning performance. The FCC-300 is the perfect tool for cleaning a large variety of fiber connectors.

FCC-300

ZIDS Tool Router Bit

ZIDS Tool Router Bit Inner
Duct Slitter - pending patent
design that prevents damage to
the fiber during operation. Cuts
5/16" channel through duct allowing easier spreading to remove cable. More than 5X faster
compared to traditional duct
cutting methods.
GMP 70464

V11 High Precision Fiber Optic Cleaner

V11 High Precision Fiber Optic Cleaner - This INNO Instrument is for high precision fiber cutting. The V11 is installed with a universal holder, which is applicable to 250µm fiber cable, 900µm fiber cable, flat cable, ribbon fiber, and jumper cable. It also has an auttomatic collector for fiber shards and offcuts.

INNO V11

Ferret Plus

Ferret Plus - Multipurpose Wireless Inspection Camera & Cable Pulling Tool - It is designed and engineered to be the world's first-ever non-contact voltage detector to help identify live cables from a greater reach than ever before. Comes with built-in memory providing the ability to record even when out of WiFi, a built-in voltage detector and an App controlled variable focus lens.

JN CF-300

Stripping Tools

Ripley CST Coring & Stripping Tool R-31910

5kV Airport Lighting Cable Stripper & **Pencillining Tool** R-27700

4x4 Plus Cable End Stripper R-36000009

Cable stripper/Slitter 08013000 Small Diamter 08013050 Large Diameter

Wire Stripper 10-22 **AWG** JN JIC-1022

Coaxial Cable Stripper for Cable Jackets R-28900 / R-21500 R-12500

Center Feed Cable Stripper R-81400

COAX Stripping Tool JN UST-100

Slitter Tools

Ratcheting Duct & Cable Slitter JN RCS-3

Mid Span Slitter JN MS-6 **JN MS-26**

Cable Slitter for Armored & Heavy Duty Cable R-37880

Fiber Optic Drop Cable Slitter **JN FOD-2000**

Splicer Tools

Cable Splicer's Kit K-46037

Cable Splicers Knife 6.5in K-44200

Insertion Tools

15-34.5 kV Load Break 200 Amp Load Break Elbow Probe R-35150

Brushing R-35900

Cutting Tools

1in Coaxial Cable Cutter **BNAUB95**

Miscellaneous Tools

Shear Type Hand Operated Cutters 25in APEX C 0290FCS

Fiber Kit with Kevlar Cutter JN TK-350

Large Fiber Duct Cutter JN MDC-64

Cable & Pipe signal Receiver J-17-300R

Bushing for Encore Wire R-11-87550 400 Kcmil R-11-92550 500 Kcmil

Visual Fault Locator, FO-VFL & 1.25mm Adapter R-80910

Fiber Connector Cleaner JN FCC-120 / JN FCC-125 **JN FCC-250**

Universal Drop Cable Trimmer R-35221 R-35238

Wire V Brush - Hand Conductor Cleaning AE 10-178

Slit & Ring Tool JN MS-326 JN MS-306 / JN MS-426

Micro Duct Fiber Cable Fiber Connector Tool for LC, SC Connectors **JN FCT-100**
