The birdseye material is quick-drying and and definitely durable enough to withstand nightly machine washing. This hi-vis shirt is also moisture-wicking, to help you stay cooler and more sweat-free when you're on the job. This high visibility shirt is detailed with 2-inch silver reflective taping, which lights up even in the dimmest environments. One horizontal stripe and two vertical stripes create a protective framework of visibility around your body. A pocket on the left chest of this men's high-visibility shirt completes the design, giving you a place to store things. This T-Shirt isn't just made for visibility, it's made to help you work by keeping you cool, comfortable and safe.
